

## Seminar and workshop

# WASH and nutrition - bridging sectors and circular approaches

The 23rd of March, 11:30-16:00 ó clock  
Stockholm Environmental Institute (SEI), Linnegatan 87D, Stockholm

Lack of safe and sustainable water, sanitation and hygiene (WASH) and poor nutrition is a global challenge. The SIANI WASHnut expert group is a platform for practioners and researchers who aim to explore and improve cross-sectoral collaboration within WASH and food production/nutrition with a special focus on resource recovery and resilience.

In this seminar and workshop we examine cross-sectoral aspects of WASH and nutrition; the importance of WASH for nutrition, reuse aspects of WASH for food, exploare what a resilience approach might mean within WASH planning and also discuss the relevance of WASH and nutrition in Sweden.

## Preliminary agenda

**11:30 Arrival, registration and lunch wrap**

### 12:00 Seminars

- Introduction of WASHnut expert group work and reporting from Nairobi workshop  
*Helfrid Schulte-Herbrüggen, Ecoloop*
